14 I have carefully examined the site. I am of opinion that it is not suited for the purpose for which it is intended viz the Construction a Hostel thereon. The surroundings are undesirable from a hygienic point of view & the land is low lying.

Should however it be finally decided by the Trust Board or the Municipality to give over to the Wesleyan Mission for Construction a hostel thereon I would suggest the desirability of the building being constructed towards the southern end & leaving the northern end as play ground.

Sir,

In continuation of my letter of the 19th. inst.,asking for the grant of a site on the land to the east of the Narayana Sastri Rd., I have the honour to state that I mentioned the Southern part of that land, not because I prefer that end of the land, but because I was given to understand that objections had been previously raised to the erection of a building on the Northern part.

Believing, on further consideration, that the Council may now be willing to allow such a building as I propose to erect, I have the honour to request that the Northern part be granted for my School Hostel, instead of the Southern part, as requested in my letter of the 19th. inst. If this is impossible, however, I earnestly request that I may, at least, be allowed to neatly enclose the Northern part, and make it into a kind of garden or recreation ground for the students living in the Hostel, building the latter further south.
